

Where Your Time Is Everything

Operator Trailer Checklist

Purpose:

To ensure the trailer is attached to the towing vehicle correctly.

Use this checklist BEFORE the trailer is towed by a vehicle!

A Single Axle Trailer

Check the following:

- The coupling is locked in place on the tow ball with a pin.
- The safety chain is attached to the tow bar.
- The jockey wheel is wound right up, is lifted up with both handle and wheel facing the sky and locked in place.
- The handbrake is off (if fitted)
- The trailer plug is attached
- The lights and indicators on trailer are working
